Owens Corning™ FOAMULAR®

Extruded Polystyrene (XPS) Rigid Foam Insulation

Great Insulation – And Here's Why

- Absorbed water reduces insulation's R-value. FOAMULAR® XPS is manufactured with a process that results in a closed cell cross section, which means very little water will be absorbed.
- FOAMULAR® XPS is great for commercial and residential walls, residing projects, commercial roofs, foundations, underground utilities, under roads and more.
- FOAMULAR® XPS is available in a variety of compressive strengths and styles to suit the job.
- FOAMULAR® XPS is the only XPS that is GREENGUARD Gold certified.
- FOAMULAR® XPS is the first XPS with a third party, independently certified, minimum 20% recycled content by SCS (Scientific Certification Systems).
- FOAMULAR® XPS has an industry-leading lifetime limited warranty[1] across all thicknesses and compressive strengths.

Lifetime Limited Warranty* on FOAMULAR® Insulation
Warranty covers all product properties – ASTM C578 and CAN/ULC-S701
*See actual warranty for details.
