Owens Corning delivers high-performance insulation solutions through a full line of fiberglass, foam and mineral wool products and systems. These products and system solutions help conserve energy, improve acoustics and ease installation and use. These qualities add up to preferred insulation products for residential and commercial construction and industrial applications.

With a minimum of 20% recycled content, the installed FOAMULAR® products contributed to valuable LEED® credits. With a minimum of 70% recycled content, the installed Thermafiber® products also contributed to valuable LEED® credits, helping the building earn a LEED® CS Gold certification.^{1,2}
