

ULTRABLADE® HE

A FABRIC TO REDUCE YOUR LAY-UP TIME

Ultrablade® HE is a high-efficiency fabric that has been specially designed to reduce the amount of material layers needed to lay-up in a blade mold. Ultrablade® HE fabric offers process advantages that will help save labor costs while maximizing the speed performance compared to existing UD fabrics.

- A fabric solution manufactured with Owens Corning proprietary High Modulus Glass Technology

HIGH EFFICIENCY FABRIC FOR WIND BLADE PRODUCTION

Product Benefits

- Saved labor costs and time
- Lower resin consumption
- Improved permeability
- Reduce lay-up time, maintaining blade performance

Applications

Wind Blade Production

- Spar Caps
