Thermafiber® Industrial Mineral Wool Insulation
is designed for high temperatures in process industry and fire resistant applications. Our products are designed to perform in extreme conditions, maintain process temperatures, conserve energy, and reduce noise. They are suitable for temperatures up to 1200°F (649°C).

Thermafiber® Pro Section WR
• Water repellent
• 4 ft. lengths, saving time for longer runs
• Easy to fabricate and install
• Superior durability and workability
• Hinged up to and including 7” nominal pipe size
• Available in cartons or double-stacked on pallets
• ISO 15665 compliant acoustical systems available

Thermafiber® Industrial Board
• Easily fabricated for multiple applications including pipe and tank wrap
• Offers excellent thermal performance and resiliency
• Non-combustible and non-corrosive
• Wide range of densities and dimensions available
(see chart on back)

Thermafiber® Industrial Fabrication Board
• Specifically designed for v-groove and cut pipe fabrication process
• Crimped fibers provide strength during fabrication and finished pipe durability
