

PROCAT[®] GROW YOUR BUSINESS

INSULATION SYSTEMS DONE RIGHT

Grow your remodeling business with the ProCat[®] Professional Loosefill Insulation System. Today, over 90%¹ of existing US single-family homes are under insulated², meaning most of your existing remodeling jobs have untapped potential. Help grow your business with the first system from Owens Corning designed for the professional remodeler – and help make your customers more comfortable while lowering their monthly heating and cooling costs³.

ONLY THE BEST FOR PROFESSIONALS

The ProCat® Professional Loosefill Insulation System provides the following benefits:

- **Fast** - One bag covers 80.6 sq. ft. per bag @ R30 in as little as four minutes
- **Clean** - Low dust and static formula
- **Controllable** - Installs high density insulation for better performance at the attic eaves with reduced blow-back
 - Makes installation easy, accurate, and safe
 - Dials in the R-value for retrofit walls through one 2"-3" hole, without risk of over-packing

Insulation + ventilation + air sealing helps keep excessive moisture and heat out =
PROPER CONDITIONS AND TEMPERATURES THROUGHOUT THE YEAR.

SET YOURSELF APART FROM THE COMPETITION

It's not all about what you see – you need to bring the insulation in the home up-to-date, too. With the ProCat® machine and insulation, your customers will experience advanced thermal performance – making their homes more comfortable, quieter places. The ProCat® Professional Loosefill Insulation System helps grow your business, while providing you marketable benefits.

1. Estimate developed by the North American Insulation Manufacturers Association (NAIMA) based on an analysis of the single-family detached residential building stock by Boston University.
2. Under-insulated here means when compared to the minimum prescriptive wall and ceiling insulation R-values found in the 2012 International Conservation Code (IECC).
3. Savings Vary. Find out why in the seller's fact sheet on R-values. Higher R-values mean greater insulating power.
4. See actual warranty for complete details, limitations and requirements.
