Grow your remodeling business with the ProCat® Professional Loosefill Insulation System. Today, over 90% of existing US single-family homes are under insulated\(^1\), meaning most of your existing remodeling jobs have untapped potential. Help grow your business with the first system from Owens Corning designed for the professional remodeler – and help make your customers more comfortable while lowering their monthly heating and cooling costs\(^2\).
ONLY THE BEST FOR PROFESSIONALS

The ProCat® Professional Loosefill Insulation System provides the following benefits:

- **Fast** - One bag covers 80.6 sq. ft. per bag @ R30 in as little as four minutes

- **Clean** - Low dust and static formula

- **Controllable** - Installs high density insulation for better performance at the attic eaves with reduced blow-back
  - Makes installation easy, accurate, and safe
  - Dials in the R-value for retrofit walls through one 2”–3” hole, without risk of over-packing

Insulation + ventilation + air sealing helps keep excessive moisture and heat out =

**PROPER CONDITIONS AND TEMPERATURES THROUGHOUT THE YEAR.**

---

SET YOURSELF APART FROM THE COMPETITION

It’s not all about what you see – you need to bring the insulation in the home up-to-date, too. With the ProCat® machine and insulation, your customers will experience advanced thermal performance – making their homes more comfortable, quieter places. The ProCat® Professional Loosefill Insulation System helps grow your business, while providing you marketable benefits.
