**CUTS CLEAN
WITH 1 PASS**

Time-saving precision in every package.

- **CUTS CLEANLY AND PRECISELY**
Less clumps and chunks for clean cuts with one pass
- **SLIDES IN, STAYS PUT**
Extra stiffness for batts that slide in easily and resist slumping
- **LESS DUST**
Faster clean up and easier for overhead applications
- **FEELS SOFT AS COTTON**
Shed resistant insulation stays on the batt, not on you
- **PREFERRED BY PROS**
Pros who tried it prefer it for their next project⁴

¹ Based on 1,457 sq. ft. insulated cavity area.

² Installation time trials conducted by Owens Corning with independent installers, February/March 2021. Does not include supporting tasks required for insulation install.

³ Owens Corning sponsored research among home builders through Home Innovation Research Labs Builder Panel, April 2019. Based on the open-end question: What one brand of insulation would you TRUST MOST to use in the new homes you build?

⁴ Market study conducted by Protobrand, commissioned by Owens Corning, June 2020.
