HOME SWEET HOME

Your home is your sanctuary. It’s the place where you want to feel the most comfortable. Safe. Protected. You make sure how you keep your house, it makes sense to work on it together. Since 1939, Owens Corning has been a recognized leader in the building industry, trusted by homeowners for over 75 years. In fact, we’re America’s most trusted roofing brand.** Not only can we help you choose the right shingle and roofing system components, we can also help you get all the design, repair, or replacement work your project needs done. And if purchasing a new roof is on your to-do list, it may seem like there’s no end in sight. Don’t worry, we know that a roof replacement system can help you feel great every time you pull in the driveway.

TOTAL PROTECTION SIMPLIFIED™

Owens Corning® Total Protection Roofing System™ integrates engineered Owens Corning® components that work together to protect your home. From premier performance areas such as a high-performance underlayment, SURE¬ Adhered Ice & Water Barrier, and Exhale® System hardware, while also making it easy to understand the importance of each. With Owens Corning, it’s easy to confidently deliver total protection, beauty and peace of mind.

**2018 Roofing Brand Awareness Study by Owens Corning Roofing and Asphalt, LLC.
† Owens Corning Roofing strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with similar lighting. Actual savings will vary based on programs, Location and Existing Building characteristics. Call 1-800-GET-PINK® or 1-800-538-7465 for more information.

ONE OWENS CORNING PARKWAY

OWENS CORNING ROOFING AND ASPHALT, LLC

TruDefinition® Duration® Shingles are specially formulated to provide great contrast and dimension to any roof. Though the use of multiple granule colors and shadowing, TruDefinition® Duration® Shingles offer a long-lasting and distinctive effect. This resistance of color and depth is evident with every TruDefinition® Duration® Shingle line available in popular colors with bold, lively contrast and complemented shadow lines for greater dimension. They feature a Windtech® Design (tested to an industry standard 130 MPH) and an industry-recognized Lifetime Wind Warranty."‡‡

TruDefinition® Duration® Shingles are produced with StreakGuard™ Protection to inhibit the growth of airborne blue-green algae* that can cause unsightly dark streaks on your roof. Owens Corning provides a 10-year Algae Resistance Limited Warranty.*

Beyond the outstanding curb appeal and impressive warranty coverage, they also come with the advanced performance of patented SureNail® Technology.

The SureNail® Difference — A technological breakthrough in roofing. The innovative features of Owens Corning® TruDefinition® Duration® Shingles with patented SureNail® Technology offer the following:

- **Breakthrough Design** — Patented SureNail® Technology engineered featuring Micro tabs to deliver exceptional fastener holding capability.
- **Triple Layer Protection** — A unique “triple layer” of reinforcement occurs when the fabric overlays the common bond of the shingle laminate layers that offers excellent fastener holding power.
- **Outstanding Grip** — Our enhanced Tru-Bond® sealant grips tightly to the engineered fabric nailing strip on the shingle below.
- **Excellent Adhesive Power** — Specially formulated, wide adhesive bands help keep shingle layers laminated together.
- **Excellent Adhesive Power** — Specially formulated, wide adhesive bands help keep shingle layers laminated together.
- **Exceptional Wind Resistance** — Engineered to achieve 130 MPH wind warranty performance with only 4 nails. Fewer nails required can mean fewer deck penetrations.
