DURARIDGE® HIP & RIDGE SHINGLES WITH SURENAIL® TECHNOLOGY
DURARIDGE® HIP & RIDGE SHINGLES are a component of the Owens Corning® Total Protection Roofing System.®

The perfect finishing touch.
A new roof can give your home a whole new look and DuraRidge® Hip & Ridge Shingles provide the finishing touch. Featuring a bold, dramatic appearance and vibrant TruDefinition® colors,1 DuraRidge® Hip & Ridge Shingles are a beautiful complement to our TruDefinition® Duration® Series shingles. In fact, Owens Corning and your contractor can help you choose a DuraRidge® Hip & Ridge Shingle and TruDefinition® Duration® Series Shingle that are perfectly matched to deliver beauty and performance for many years to come.

Add beauty. And protection.
DuraRidge® Hip & Ridge Shingles are the first to feature the Triple Layer Protection® of our patented SureNail® Technology. SureNail® Technology adds a layer of reinforcing fabric that clearly defines the nailing zone, taking the guesswork out of nail placement for top performance.

The first hip & ridge shingles with the strength of SureNail® Technology
DuraRidge® Hip & Ridge Shingles feature a woven engineered fabric embedded in the nailing area to provide reinforcing strength right where it does the most good.
The SureNail® difference.
A technological breakthrough in roofing.

DuraRidge® Hip & Ridge Shingles are the first hip & ridge shingles with the strength of patented SureNail® Technology.

Durable construction.
Granules on the front and back of the shingle help deliver long-term durability while adding dimension to your roof.

Easy installation.
SureNail® Technology provides a prominent nailing area for faster installation while adding strength to help eliminate contractor callbacks due to shingle blow off.

Excellent curb appeal.
High-profile and layered design enhances your roof line and adds a refined look to your entire home.

Breakthrough Design
A tough, woven engineered reinforcing fabric in the nailing area promotes easy, fast and consistent fastening, and provides excellent blow-through and nail-pull resistance.

Excellent Adhesive Power
Specially formulated, wide adhesive bands help keep shingle layers laminated together.

Triple Layer Protection®
A unique “triple layer” of reinforcement occurs when the fabric overlays the common bond of the laminated layers, offering excellent fastener holding power.

It takes more than just shingles to protect your home. It takes an integrated system of components and layers designed to withstand the forces of nature outside while controlling temperature and humidity inside. The Owens Corning Total Protection Roofing System™ gives you the assurance that all of your Owens Corning roofing components are working together to help increase the performance of your roof — and to enhance the comfort and enjoyment of those who live beneath it.

* Actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area.
† Excludes Non-Owens Corning Roofing products such as flashing, fasteners, pipe boots and wood decking.
‡ Limited Lifetime (for as long as you own your home). See actual warranty for complete details, limitations and requirements.
§ 130 MPH is applicable only with 4-nail application in accordance with installation instructions.
∥ The amount of Triple Layer Protection® may vary on a shingle-to-shingle basis.
§ Only on product sold in Canada.
† Applies for all areas that recognize Miami-Dade County Product Control Section.

SureNail® Technology is proprietary with U.S. and foreign protection including U.S. Patent Nos. 6,471,812; 7,836,654; 8,156,704; 8,181,413; 8,240,102; 8,430,983; 8,607,521; patents pending.
SureNail® Technology is not a guarantee of performance in all weather conditions.
SureNail® Technology is available only on Owens Corning Duration® Series Shingles.
