SURENAIL® TECHNOLOGY
Only On Duration® Series Shingles

FOR PROVEN PERFORMANCE
TRUST THE GRIP OF
THE SURENAIL STRIP®
It's the nailing line on your shingles
The difference between a good shingle and a great shingle is having SureNail® Technology, only available from Owens Corning on Duration® Series shingles. Patented SureNail® Technology features a wide, highly visible engineered fabric strip in the nailing zone for a consistent, quality installation, and Triple Layer Protection® for outstanding gripping power.

Why should you care about the nailing line?
Even the best shingle can’t perform right if it’s not installed properly. And your shingles may not even be covered under the warranty if they aren’t fastened in the right place.

Contractor opinion carries a lot of weight. In a recent contractor survey, 9 out of 10 contractors agree that versus other architectural shingles:
- SureNail® Technology provides the most visible nail zone in the industry
- SureNail® Technology provides greater nail pull-through protection
- The wider common bond in the Triple Layer Protection® of SureNail® Technology provides the greatest fastening power

In fact, 98% of contractors say, “With SureNail®, I know exactly where to nail.” It’s easy to see why contractors feel Duration® Series shingles with SureNail® Technology are the most preferred for installation and the most reliable shingle on the market.
This tough, engineered woven-fabric strip is embedded in the shingle to create an easy-to-see strong, durable fastener zone.

**Excellent Adhesive Power**
Helps keep the shingle layers laminated.

**Outstanding Grip**
The SureNail® strip enhances the already amazing grip of our proprietary Tru-Bond™ sealant for exceptional wind resistance of a 130-MPH wind warranty.

**Breakthrough Design**
Patented SureNail® Technology™ is the first and only reinforced nailing zone on the face of the shingle.

**“No Guess” Wide Nailing Zone**
This tough, engineered woven-fabric strip is embedded in the shingle to create an easy-to-see strong, durable fastener zone.

**Triple Layer Protection™**
A unique “triple layer” of reinforcement occurs when the fabric overlays the two shingle layers, providing increased protection against "nail pull" from the wind.

**Double the Common Bond**
SureNail® features up to a 200% wider bond between the shingle layers in the nailing zone over standard shingles.

**DURATION® SERIES SHINGLES**
with SureNail® Technology
with Triple Layer Protection®
Proven performance is what truly sets Owens Corning® architectural shingles above the rest. We brought our Duration® Series shingles into the lab to test their performance against wide, single-layer nail zone shingles in three major strength tests. And in each test, the Triple Layer Protection® of SureNail® Technology outperformed the competition where it matters most—in the nailing zone.

**vs. top two competitors**

**Nail Pull-Through Resistance**

The shingle's resistance to getting pulled off the roof in high wind conditions.

Up to $2.5\times$ Better

**Nail Blow-Through Resistance**

The shingle's resistance to contractors blowing through the shingle while fastening to the roof.

Up to $9\times$ Better

**Delamination Resistance**

The shingle's resistance to its layers slipping apart after they are installed on the roof.

Up to $2\times$ Better
It takes more than just shingles to protect a home. It takes an integrated system of components and layers designed to perform in three critical areas. The Owens Corning® Total Protection Roofing System® gives you the assurance that all of your Owens Corning® roofing components are working together to help increase the performance of your roof.
Your home is the center of your world—where your memories are made. And we see it as our job to make the world a better place. So, Owens Corning is relentless about reimagining and creating materials that help protect your biggest investment, your home.

When you choose Owens Corning® roofing products, you get products and systems that deliver a material difference — a difference that can be seen in the curb appeal of your roof and experienced through premium performance, protecting your home and family.

Our commitment to quality offers you peace of mind that your new roof will stand the test of time. At Owens Corning, we know that your roof does more than just cover your house—it helps protect your future memories.

MORE THAN JUST A ROOF®
IT’S PROTECTION FOR YOUR HOME.
