TruDefinition® DURATION® COOL Shingles with Patented SureNail® Technology

Summerwood®

TOTAL PROTECTION ROOFING SYSTEM
TruDefinition® Duration® COOL Shingles provide dramatic curb appeal and outstanding performance.

The TruDefinition® color platform provides an exclusive combination of color, depth and shadowing that makes for an exciting impression from the curb.

TruDefinition® Duration® COOL color offerings are specifically designed with solar-reflecting granules to help decrease the amount of heat transferred into a home. They also meet the prescriptive Cool Roof requirements of California Title 24, and are rated by the Cool Roof Rating Council (CRRC). Being COOL has never looked better.

Features of Duration® Shingles:

- Patented SureNail® Technology
- Limited Lifetime Warranty*/‡‡ (for as long as you own your home)
- 130-MPH Wind Resistance Limited Warranty*
- Coordinates with color-matched Owens Corning® Hip & Ridge shingles for a finished look

◊ Aged solar reflectance calculated based on equation provided in California Energy Code (Title 24, Part 6).

^^ Indicates initial thermal emittance.

t† SRI calculation based on calculated aged solar reflectance and initial thermal emittance. SRI is calculated using California Energy Commission SRI calculator worksheet and it is calculated in accordance with ASTM E1980.
Similar to the energy-efficient appliances in your home, roofing products can help provide energy-saving qualities. Owens Corning® ENERGY STAR® qualified shingles can help reduce your heating and cooling bills when installed properly. These shingles reflect solar energy, helping to decrease the amount of heat transferred to a home’s interior — and the amount of air conditioning needed to keep it comfortable. Actual savings will vary based on geographic location and individual building characteristics. Call 1-800-GET-PINK® or 1-888-STAR-YES for more information.

ENERGY STAR® IS FOR ROOFS TOO

- Sand Castle®
- Shasta White®
- Sierra Gray®
- Summerwood®
In a premium offering of TruDefinition® Duration® COOL Shingles, there are COOL Roof Collection colors that are specially designed to reflect the sun's rays, helping to make your home more comfortable and energy efficient. These deep, rich colors are unexpected for solar-reflecting shingles which are typically very light in color. Now you can save energy and look great at the same time.

Cool Roof Requirements in California and Other Compliance Programs

Additional Features of COOL ROOF COLLECTION colors:
- Meet the prescriptive Cool Roof requirements of California Title 24, Part 6
- Are Cool Roof Rating Council (CRRC) rated
- Meet City of Los Angeles Cool Roof requirements
- Meet Property Assessed Clean Energy (PACE) financing program requirements
- May help lower household energy consumption by keeping the roof cooler; also may help decrease CO₂ emissions
There’s a line between a good shingle and a great shingle™.
It’s the nailing line on your shingles. The difference is having SureNail® Technology.

- **Excellent Adhesive Power**
  Helps keep the shingle layers laminated.

- **Outstanding Grip**
  The SureNail® strip enhances the already amazing grip of our proprietary Tru-Bond® sealant for exceptional wind resistance of a 130-MPH wind warranty.*

- **Breakthrough Design**
  Patented SureNail® Technology is the first and only reinforced nailing zone on the face of the shingle.

- **“No Guess” Wide Nailing Zone**
  This tough, engineered woven-fabric strip is embedded in the shingle to create an easy-to-see strong, durable fastener zone.

- **Triple Layer Protection**
  A unique “triple layer” of reinforcement occurs when the fabric overlays the two shingle layers, called the common bond area.

- **Double the Common Bond**
  SureNail® features up to a 200% wider common bond area in the nailing zone over standard shingles.

Shasta White color meets ENERGY STAR® requirements for initial solar reflectance of 0.25 and 3-year aged solar reflectance of 0.15; 2013 California Building Energy Efficiency Standards, Title 24, Part 6 requirements; rated by the Cool Roof Rating Council (CRRC).

---

**TOTAL PROTECTION. TOTAL CONFIDENCE.**

The most important part of the roof? All of them.

It takes more than just shingles to protect a home. It takes an integrated system of components and layers designed to withstand the forces of nature outside while controlling temperature and humidity inside. The Owens Corning® Total Protection Roofing System™ gives your customers the assurance that all of their Owens Corning® roofing components are working together to help increase the performance of the roof — and to enhance the comfort and enjoyment of those who live beneath it.
