

TITANIUM® & RHINOROOF®

START STRONG™

ROOF DECK PROTECTION SYSTEM

TITANIUM

PROTECTION™

Start Strong with Self-Adhered Ice and Water Barrier and Synthetic Underlayment from Titanium® and RhinoRoof®

Install right from the start with the brands you know and trust. Our growing portfolio of high performance self-adhered ice and water barrier and synthetic underlayment products give you the best options for every roofing job. From asphalt to metal, you can rest assured knowing the roof deck is completely protected.

PROTECTION FROM EAVE TO PEAK

- Help protect the roof deck – during install and after
- Limited warranty
- Brand contractors know and trust
- Made by U.S. company
- Helps resist damage from weather with moisture protection*
- Increase walkability with Sure-Foot® Technology patented nodular walking surface***
- Withstand temperatures up to 240°
- Contribute to LEED® points

* Not a guarantee of performance in all weather conditions

** Titanium only

TITANIUM®

TITANIUM®

RhinoRoof® Granulated

Provides an essential waterproof barrier that acts as a second line of defense against moisture and damage.

RhinoRoof® U20

Improved tear resistance for protection against inclement weather and foot traffic. Up to 2X stronger than competitive underlayments.*

*Test data based on average of samples tested in accordance with ASTM 4533.

Titanium® PSU30 with Sure-Foot® Technology

Is a flexible, high temperature premium self-adhered underlayment that allows for easy steep slope walkability, even in wet or dusty conditions.

Titanium® FR with Sure-Foot® Technology

Specifically designed to meet wildland-urban Class A fire codes as a critical component of a roof assembly with proprietary technology that mitigates fire spread to the roof deck under solar panels, metal, asphalt, or tile.

Titanium® UDL25 with Sure-Foot® Technology

Creates a layer of defense for the roof deck that's 14x stronger and 30% faster to install than #30 felt.

Titanium® UDL30 with Sure-Foot® Technology

Supports the roof deck with a highly engineered, mechanically attached barrier that's 20x stronger and 30% faster to install than #30 felt.

Titanium® UDL50 with Sure-Foot® Technology

Offers the ultimate roof deck protection with a synthetic barrier that's 25x stronger and 30% faster to install than #30 felt.

Titanium® X30 with Comfort Grip™ Technology

The advanced technology of Titanium® X30 synthetic underlayment combines all-weather ease and exceptional walkability with strength and durability that other brands can't match.
