2020 SHINGLE COLOR OF THE YEAR

PACIFIC WAVE

blue-gray of
*naturally
inspired*
materials

Bring new life to your home with a deep ocean blue wave of rich, transformative color. Pale blue mixed with dark and light gray granules adds a sea of dimension that can achieve a relaxed, coastal vibe or a strong, stately look. All TruDefinition® Duration® Designer Colors Collection shingles come with the advanced performance of patented SureNail® Technology, tough enough to weather the elements, year-round. Ride a wave of breathtaking color with a shingle designed to naturally complement any exterior.

Ride the Wave of Versatility – Stylishly Transform Any Home Exterior

SureNail® Technology

There's a line between a good shingle and a great shingle.*

It's the nailing line on your shingles. The difference between a good shingle and a great shingle is having Patented SureNail® Technology, only from Owens Corning.

Outstanding Grip

The SureNail® strip enhances the already amazing grip of our proprietary Tru-Bond®** sealant for exceptional wind resistance of a 130-MPH wind warranty.*

Breakthrough Design

Patented SureNail® Technology is the first and only reinforced nailing zone on the face of the shingle.

"No Guess" Wide Nailing Zone

This tough, engineered woven-fabric strip is embedded in the shingle to create an easy-to-see strong, durable fastener zone.

Triple Layer Protection®**

A unique "triple layer" of reinforcement occurs when the fabric overlays the two shingle layers, called the common bond area.

Double the Common Bond

SureNail® features up to a 200% wider common bond area in the nailing zone over standard shingles.

Excellent Adhesive Power

Helps keep the shingle layers laminated.

For more information and to watch our videos on SureNail® Technology, go to www.owenscorning.com/surenail.

SEAL. DEFEND. BREATHE.®
TOTAL PROTECTION ROOFING SYSTEM™

It takes more than just shingles to protect your home. It takes an integrated system of components and layers designed to withstand the forces of nature outside while controlling temperature and humidity inside. The Owens Corning® Total Protection Roofing System® gives you the assurance that all of your Owens Corning® roofing components are working together to help increase the performance of your roof – and to enhance the comfort and enjoyment of those who live beneath it.

Product Attributes

Owens Corning® Hip & Ridge Shingles

Owens Corning® Hip & Ridge shingles are uniquely color matched to the *TruDefinition Duration Designer Colors Collection Shingles*. The multiple color blends are only available from Owens Corning Roofing and offer a finished look for your roof.

Blended

Traditional

- * See actual warranty for complete details, limitations and requirements.
- † Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area.
- ‡ The amount of Triple Layer Protection® may vary on a shingle-to-shingle basis. For patent information, please visit www.owenscorning.com/patents. SureNail® Technology is not a guarantee of performance in all weather conditions. SureNail® Technology is available only on Owens Corning® Duration® Series Shingles.
- ‡ 40-Year Limited Warranty on commercial projects.
- ** Tru-Bond® is a proprietary premium weathering-grade asphalt sealant that is blended by Owens Corning.
- § Applies for all areas that recognize a Miami-Dade notice of Acceptance (NOA).
- # International Code Council Evaluation Services Acceptance Criteria for Alternative Asphalt Shingles.
- ^ Excludes non-Owens Corning® roofing products such as flashing, fasteners, pipe boots and wood decking.
