Owens Corning® Mineral Surfaced Roll is an economical solution for any low-sloped roof. Because it’s constructed of a hardworking Fiberglas™ mat, it lasts longer.

- Mineral Surfaced Roll lies flat, so it helps protect against weather and helps resist moisture
- Available in a wide range of popular colors

Applicable Standards and Codes

- ASTM E 108, Class C
- UL 790, Class C

† Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area.
