SureStep® Technology helps protect your roofs and the crews who install them.

WeatherLock® Mat Self-Sealing Ice & Water Barrier is designed to act as an additional line of protection against damage due to shingle blow-off, wind-driven rain and ice damming. Now with SureStep® Technology, it helps protect even more.

WeatherLock® Mat not only provides a secondary water barrier under shingles to deliver the weather protection your customers expect but also helps protect your crew during installation.

- SureStep® Technology provides excellent traction to help protect your crew against slipping
- Self-sealing to help prevent damage associated with shingle blow-off, wind-driven rain and ice damming
- Light and easy to load, carry and install
- Versatile design for applications such as eaves, rakes and valleys or full roof deck coverage

TOTAL PROTECTION SIMPLIFIED

It takes more than just shingles to protect your home. It takes an integrated system of

components and layers designed to withstand the forces of nature outside while controlling temperature and humidity inside. The Owens Corning Total Protection Roofing System*^ gives you the assurance that all of your Owens Corning roofing components are working together to help increase the performance of your roof — and to enhance the comfort and enjoyment of those who live beneath it.
