**Subject: Owens Corning® VaporWick® Fiberglas™ Pipe Insulation
Discontinuation**

Dear Owens Corning Pipe Insulation Customer,

Owens Corning is discontinuing the sale of VaporWick® Fiberglas™ Pipe Insulation. With the recent acquisition of Pittsburgh Corning, we are confident in our ability to provide continued support to you and your customers as unique needs for low temperature pipe insulation arise.

Please contact your Owens Corning Area Sales Manager for assistance in adequately supplying existing jobs or converting jobs. We will continue to fulfill VaporWick® orders placed through the end of September, subject to standard lead times and service guidelines.

Thank you very much for your support, business, and cooperation during this transition period. We look forward to being part of your continued success throughout 2017 and beyond.

Sincerely,
Tim Clancy
Product and Program Director
Owens Corning Engineered Insulation Systems
