COMMITMENT TO SUSTAINABILITY*

Our people and products make the world a better place. That simple and powerful purpose defines Owens Corning today, as well as the company we are building for the future. The people of Owens Corning are committed to expanding our impact through sustainability to deliver on this purpose. Our commitment to sustainability starts with the Board of Directors and runs through the management teams and employees around the globe.

We are proud of our accomplishments this past year to further reduce our environmental footprint. But, footprint reduction alone doesn’t define our values. We have initiated the exciting work of understanding, measuring and expanding our handprint – creating a net-positive impact of our company and its products.

Our 2013 Sustainability Report is a record of our achievements. It also includes candid acknowledgment that much more is needed to achieve our aspiration of expanding our impact through sustainability. Our progress is embedded across all aspects of our company and some of our highlights are below:

Safety
- Awarded the Green Cross for Safety medal from the National Safety Council for leadership and progress in safety.
- Extended our industry-leading track record of safety achievement with performance comparable to 2012.
- Expanded our aspiration in safety beyond accident prevention to “Living Safely.”

Operations Sustainability
- Continued progress toward meeting our ambitious 2020 environmental footprint goals.
- Commissioned the largest on-site solar PV system in the state of New York at our Delmar EcoTouch™ Insulation plant.

Product Sustainability
- Published our FOAMULAR® Insulation Environmental Product Declaration.
- Recycled one million tons of asphalt shingles in North America, representing approximately 10 percent of the market.

Supply Chain Sustainability
- Doubled our freight miles driven on natural gas (converted from diesel), paving the way to run 15% Natural Gas Miles in 2014; our goal is 50 percent by 2020.

Climate Advocacy
- Signed the Climate Declaration calling on the U.S. policymakers to address climate change and joined the Business for Innovative Climate & Energy Policy (BICEP) advocacy organization.

Strategic Philanthropy
- Assisted nearly 4,000 families through the donation of insulation and roofing materials for their homes.
- Impacted the lives of more than 5,500 children in China by constructing nutritional food kitchens in rural schools.

Thank you for your continued interest in Owens Corning and our sustainability journey. Our commitment to expanding our impact through sustainability is unwavering and we welcome your comments on the progress we are making at: Sustainability@owenscorning.com.

Frank O’Brien-Bernini
Vice President, Chief Sustainability Officer

Mike Thaman
Chairman and Chief Executive Officer

*The following is an abridged version of our full sustainability executive letter. You can read the entire letter at http://sustainability.owenscorning.com/contents/commitment/A-Message-from-Our-CEO-CSO/
Owens Corning has been setting goals, measuring, reducing and reporting its environmental footprint for many years. Footprint reduction is not enough to solve today’s issues of energy use, greenhouse gas emissions and other natural resource consumption or social impacts. And taking it to an end conclusion of zero impact would require stopping our manufacturing operations.

Handprinting utilizes Life Cycle thinking, measuring not only the impact of our own operations, but also those of our suppliers and the people that touch our products or interact with our company. It creates new opportunities for us and our stakeholders to positively impact our environment, support community vitality and engage our employees. Ultimately, the goal is to have our Handprint footprint reduce with improvements in 2013 with the exception of waste-to-landfill.

CORPORATE CITIZENSHIP

Every day, our employees are doing their part – Our people and products make the world a better place. Through contributions of time, talent and resources Owens Corning helps build strong, cohesive communities.

EMPLOYEE VOLUNTEERISM

In 2013, 52 percent of Owens Corning locations participated in at least one community service project across the globe. We expanded our corporate philanthropy internationally and supported projects in India, Mexico and China. We engaged our employees and impacted the communities where they work and live. Through Company sponsored volunteer opportunities, Owens Corning built homes for those in need, revitalized neighborhoods, built kitchens in China to feed more than 5,500 children, supported community centers, homeless shelters and more.

FINANCIAL SUPPORT

The Owens Corning Foundation is a 501(c)(3) non-profit organization that was established in 1978 to enhance lives through charitable contributions. The foundation supports Owens Corning’s stakeholder communities throughout the United States and across the globe through strategic partnerships. Additionally, the foundation engages employees through multiple programs designed to encourage volunteerism and giving.

PRODUCT DONATION

As a global leader in building materials and composite solutions, we know our products can make a significant impact in the areas of critical needs shelters and safe, efficient housing for those in need. Donations of building materials are focused in support of that strategy in several key areas:

- Building and rehabilitation of safe, efficient housing for those in need
- Neighborhood revitalization projects
- Rehabilitation of shelters and community centers
- Disaster relief

Owens Corning has partnered with organizations such as Habitat for Humanity®, HomeAid, Good360 and World Vision to help coordinate the distribution of product donations.

In 2013, Owens Corning donated enough shingles to re-roof 289 homes and enough insulation to insulate 3,500 homes for those in need. (Based on 25 squares of shingles for a 2,000 sq. ft. home and 1,500 lbs. insulation per home).
